SUMMARY

Outcome-driven technology professional with **11 years** of experience in product development and a proven track record of driving innovation. Expert in automating complex workflows and processes utilizing **event-driven, cloud-native AI applications**. Highly adaptable and effective at achieving strategic goals, both as a collaborative cross-functional leader and a self-directed individual contributor.

EDUCATION

- 07/2011 – 04/2015
Guwahati, Assam

B.Tech, Indian Institute of Technology 
CGPA: 7.8

TECHNICAL SKILLS

- DSA
 - TypeScript
 - PostgreSQL
 - GCP
 - REST API
 - Python
 - Kafka
 - Linux
 - AngularJS
 - Terraform
 - RAG
 - Context Engineering

- LLD
 - NodeJS
 - GraphQL
 - Redis
 - MongoDB
 - GenAI
 - Docker
 - Nginx
 - BASH Scripting
 - CursorAI
 - MCP
 - LangChain

- HLD
 - MySQL
 - AWS
 - ElasticSearch
 - Java
 - RabbitMQ
 - Kubernetes
 - ReactJS
 - Ansible
 - Claude code
 - Spec driven dev(SDD)
 - CrewAI

EXPERIENCE

- 08/2021 – Present
Remote

Apollo 247, Principal Engineer

 - Event-Driven Architectures: Spearheaded the design and architecture of a high-throughput, real-time analytics platform, processing over 1 million events per day.
 - Knowledge Sharing: Mentored junior software engineers, ensuring team productivity boost through adoption of best practices in code quality and automated testing procedures.
 - Strategy and Architecture: Initiated an internal Architecture and code review culture that reduced software and fostered a robust and resilient architecture.

- Development: Authored and maintained over 300,000 lines of Typescript and Java code, resulting in a robust and maintainable software base that served as the foundation for critical business applications.

07/2019 – 08/2021
Remote

Safe Security, Platform Engineer

- Centralized Logging: Implemented centralized logging library in sync with ELK for monitoring and alerting on critical events.
- Telemetry and Monitoring: Utilized TIGK stack for real-time monitoring, anomaly detection, and alerting.
- Code Modernization: Migrated the codebase from PHP to TypeScript for better scalability and maintainability.
- Cybersecurity Controls: Implemented programs to assess breach probability and compromise risk.
- Dockerization: Transformed monolith SAFE application to micro-services for efficient development and deployment using docker and kubernetes.
- Agent Deployment: Developed a self-installable and auto-upgradable SAFE agent for secure data collection and transfer.

11/2016 – 07/2019
Delhi, India

StalkBuyLove, Lead Software Engineer

- API Gateway : Created a micro-service oriented architecture outside of a monolithic framework Magento for routing purposes and yet use Magento for CRUD operations along with session management.
- SBL Logistics Automation Dashboard: Automated Order Logistics Including Operations like Recommendation, Registration, Tracking, RTO, NDR, Multiple Re-Dispatches.
- Refund/Exchange Module: Designed And Implemented Module From Scratch For Returning the Article(s) or Exchanging Multiple times By Shipping Self Or Using SBL's RVP service.

12/2015 – 11/2016
Gurgaon, India

Angular Technologies, Senior Software Engineer

05/2015 – 12/2015
Gurgaon, India

Blinkit, Software Engineer

★ KEY ACHIEVEMENTS

Received two promotions at Apollo247 2022 (SDE-4) 2024 (Principal Engineer)

Investment of worth 25 Million in ESOPs of present and past organizations

Star performer of the year-2023 at Apollo 247

Recipient to Cloud Infrastructure migration Award at Google Gurugram - 2023

- Directed the transition of legacy Apollo247 on-prem systems to the GCP cloud, reducing infrastructural costs by 30% and enhancing system resilience.

Apollo247 Payments Service

- Successfully implemented super critical payment services from scratch across all Apollo24/7 verticals with daily active transactions of 40M .

Bug bounty Hackathon - 2020 Runner up at Safe security For Resolving 7 Bugs in 24 Hours

Recipient of Thomas young Fellowship for summer intern at UCL, London 2nd year undergrad Internship

Recipient of Gilead Sciences Europe fellowship for summer intern at IOCB Prague 3rd year undergrad Internship

Cracked IIT JEE 2011 with Admission offer at IITG
